## TO FEEL ALLRIGHT

I know I belong here on earth

But I long to be lifted up

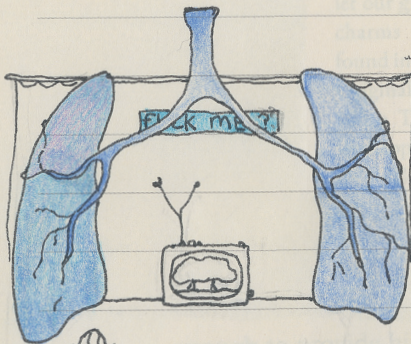

My heart does not rhyme

the rhythm of my mind

What is life worth living?

if you dont dance to anything  
right after right

Oh I long to feel allright

"I want to feel it

What the people talk about

How do you find it so easy?"

All i can is ask...

But whatever you say its never right, so I won't do that

(you cannot make me feel a thing!)

Wherever I go, I'm always blind, so I loose my track

(you cannot make me feel allright!)

# MY NAME

My name  
Was hidden somewhere  
In the back of my brain  
I didn't know before my head was drained  
And all I could hear was that name

I erase  
The mission I had before I was reversed  
Long before I was a part of earth  
I was a part of your world  
I was a part of your world  
I was a part of your world

The parade  
An innocent way to teach a dying cell  
You eventually will be eaten by yourself  
Nobody asks for help

Far away  
Somebody was given just another year  
Another departure in our atmosphere  
Will you forget I was here?  
Will you forget I was here?  
Will you forget I was here?  
Will you forget I was here?

Will you forget I was here?  
Will you forget I was here?

"GIVE UP"  
Don't give up  
Your people care  
I need you here
