

Ultra *HEROS*

New for 2025 | Steven Mead SM4UH

Continually inspired by improvement, Steven Mead's newest mouthpiece, *Heros Ultra*, provides a hybrid of the Ultra and Ultra X with a modified rim contour and inner edge, newly designed curve in the bass of the cup, and modified backbore for added projection. *"The combination of the above features allied to the quite unique body shape has resulted a mouthpiece that is sure to impress everyone who plays it."* - Steven Mead
